

Hand Tied By: Deward Yocum

1 Catch your hook in the vise with a Nymph- Head Bead.

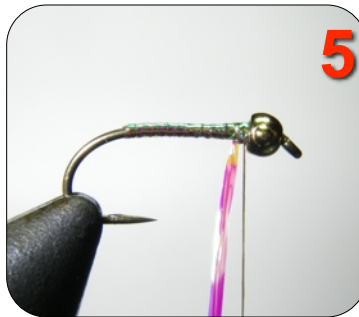

2 Start your thread behind the Nymph Head bead.

3 Tie in a piece of UTC opal tinsel.

4 Wrap your thread just to barb and back to just behind the head.

5 Wrap your tinsel back to the head and take a few turns of thread and cut off the tag end of the tinsel.

6 Dub a small amount of super fine dubbing leaving room to tie in the legs.

7 Now tie on your Whiting's Brahma hen feather and cut the tag end off and wrap the feather forward and tie and cut the tag and whip finish.

8 The Sparkle Spider makes a great attractor fly.
